SUMMARY

Frontend engineer with **six years** shipping **React** and **Next.js** products across **fintech**, **healthcare**, and consumer platforms. Owns **architecture**, **design systems**, and legacy modernization. Most recently leading **Tapsi Doctor** web (ODoc, OMS, Physician Panel, VMS) on **Next.js 15 App Router**, **TypeScript**, and **Tailwind** — **SSR/SSG** and bundle splitting cut load times by **~40%**. Technical writer on React internals, performance, and the React 19 compiler.

WORK EXPERIENCE

Frontend Developer

Feb 2025 — Present

Tapsi Doctor · Healthcare platform · Tehran

Lead frontend across **ODoc** (medicine ordering & consultation), **OMS** (order panel), **Physician Panel** (doctor panel), and **VMS** — shared **Next.js 15 / React 18 / TypeScript** platform with ownership of **performance**, **SEO**, and **accessibility**.

- Defined shared **Next.js 15 App Router** architecture (route groups, server/client boundaries, **design system**) powering ODoc, OMS, Physician Panel, and VMS
- Migrated legacy **Pages Router** to **App Router** with **SSR/SSG** and route-level **code splitting** — **~40% faster** initial loads
- Built design-system layer with **Tailwind CSS** and **Headless UI** — accessibility-checked, reused across product surfaces
- Integrated **Socket.IO** for real-time order/visit status and patient–doctor chat; set **Zustand**, forms, validation, and error-boundary conventions

Frontend Developer (Independent contracts)

May 2024 — Jan 2025

Pool Khord · **Hitobit** · **Cheetavel** · Remote

Delivered three client products with shared patterns: **Atomic Design**, **Zustand/Recoil**, **React Hook Form**, **Socket.IO**, **shadcn/ui**.

- **Pool Khord**: UI across **React Native**, **React**, and **Next.js** with responsive **Tailwind** layouts
- **Hitobit**: front-end **architecture** focused on **performance** and responsiveness
- **Cheetavel**: foundational **Next.js 15 App Router** architecture for scalability

Frontend Developer

Jan 2022 — Apr 2024

Nobitex · Largest cryptocurrency exchange in Iran · Tehran

Shipped trading and account features on a high-volume exchange, partnering closely with design and product.

- Built **real-time** market UIs with **Socket.IO** — order books, tickers, notifications under heavy throughput
- Introduced **shadcn/ui** as the shared **component library**, replacing inconsistent ad-hoc UI
- Optimized rendering, **bundle size**, and asset loading — **~25%** faster page loads; design-pattern refactor — **~35%** maintainability gain

Frontend Developer

Jun 2020 — Jan 2022

Axon · Tehran

- Built responsive apps with **React / Redux**; owned landing and CMS surfaces with **SEO** partners
- Applied **BEM** for modular CSS — **~20%** faster delivery, fewer style regressions
- Shipped UI with **Tailwind CSS**, Bootstrap, and Vuetify

Frontend Developer (Intern)

Jan 2020 — May 2020

Over Clock · Tehran

- Grew a frontend community through meetups and forums; shipped production UI with Tailwind, Bootstrap, Vuetify

SKILLS

EDUCATION

Languages	TypeScript , JavaScript, HTML5, CSS3, Python (basic)
Frameworks	React , Next.js (App Router, Server Components) , React Native , Vue, Nuxt
State & data	Zustand , Redux, Recoil, React Query, React Hook Form , React Router
Design systems	Tailwind CSS , shadcn/ui , Headless UI, Storybook, Bootstrap, Vuetify, BEM
Testing	Vitest, Jest, React Testing Library, Playwright
CI / Deploy	GitHub Actions, Vercel, Docker (basic), preview environments
Real-time	Socket.IO , Prisma ORM, REST APIs
i18n	next-intl, react-i18next, RTL/LTR layouts
Architecture	Atomic Design , SSR / SSG , component design systems, performance , accessibility (WCAG AA)
Workflow	Git, Agile/Scrum, Figma, Chrome DevTools, Lighthouse, Web Vitals

M.S. in Computer Science

Mar 2022 — Present

B.S. in Computer Science

Aug 2017 — Aug 2021

LANGUAGES

Persian	Native
English	Professional
Turkish	Professional
Dutch	A2

WRITING

- Deep Dive into **React 19 Compiler**, useEvent & Performance
- **useEffectEvent**: From A to Z
- Unified Frontend **Data Pipeline**
- Dynamic Forms with **React Hook Form** + TypeScript
- React.js Fundamentals — Composition
